

Now is your chance to work with one of the largest Data Center Cloud Hosting providers in Florida with a rapidly growing international presence. HostDime is a global company with five branches worldwide; currently in Brazil, Mexico, Colombia, India and its corporate office in Orlando, Florida. HostDime manages and owns a state of the art data center in Orlando and also has data center space in each of the branch locations, allowing the company to house over 6,000 servers and host over 5,000,000 websites. HostDime provides managed dedicated servers, co-location, and web hosting solutions for a domestic and international market. We employ a local workforce of over 80% current UCF students and we are dedicated to the community and new employee development. We are looking for highly motivated and skilled individuals who are able to excel in a dynamic environment.
